RETAIL INDUSTRY

- Are you running your business without all the facts in front of you?
- If you're setting up a business or personal accounting system, the specialized chart of accounts included in this package can save you both time and money!

What the enclosed disk will do for you:

- Helps you set up and use your General Ledger Accounting System
- The enclosed data disk provides a standard Chart of Accounts for the RETAIL INDUSTRY based on how your competitors successfully control and measure their companies
- You can change the accounts on the disk with your Commodore General Ledger System by adding or deleting specific G/L accounts for your company
- Helps you to communicate with your accountant by providing a sound framework for discussion
- Some examples of RETAIL INDUSTRY accounts are:
  - Receivables by Store
  - Merchandise Inventory
  - Leasehold Improvements
  - Sales Returns and Discounts
  - Advertising/Promotion

Technical Information: For use with G/L system on Commodore Plus/4: File capacity 300 accounts . . . or G/L system on Commodore 64: File capacity 150 accounts
